

Course Material

1. Click on **Course Material**.

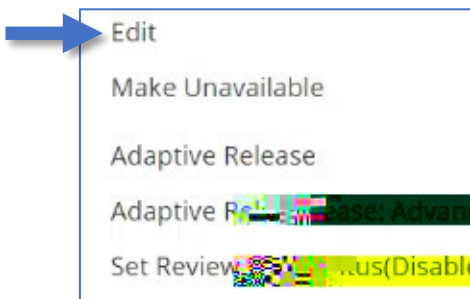

2. Click on the **Unit 1 folder** to customize the content. **Tip:** Note that you may wish to start with a unit description.

Tip: defining the path of the content you can provide a brief description or students a brief overview or introduction on what to expect for that particular reference when week or unit. This can also use this information as a guide for needing to review course material.

3. **Edit.**

4. You can change the Name

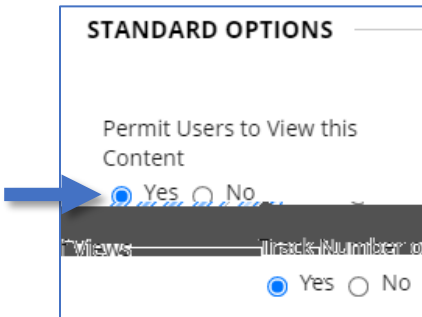

5. Below the Name, there is a text box to enter a brief description of the folder

Tip: An introduction for each chapter is provided. It also provides a brief description of the chapter.

6. Below the Attributes section, there are **Standard Options**. By default, **Permit Users to View this Content** is set to **Yes**. If that is set to **No**, students will be unable to see the section.

7. Set **Track Number of Views** to **Yes**. This will allow you to track the number of views of the section.

8. In the **Select Data and Time** pane, **Display After** **Selected Data**
